## **TURMERIC :**

Turmeric is one of the most widely used spice in cooking. It is widely grown in the Indian subcontinent and Salem, Nizamabad, Rajapuri, Erode etc are its main varieties.

Out of the total export of 1,37,000 MT in the year 2021-22, India has exported 21,502 MT to UAE. It appears yellow, golden yellow, light brown in its natural form & is available in the form of whole finger and powder.

In its raw form, it is used in ayurvedic medicines and dyeing processes. The Curcuma content which ranges from 2% to 5% adds to the medicinal value of Turmeric, making it an important part for treating Bacterial Diseases and Cancer.
